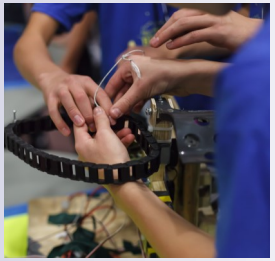
- ☐ Publicity
- ☐ Webmaster
- ☐ Grant Writer
- ☐ Bookkeeping
- ☐ Accounting
- ☐ Hub Development



What do you get?

- *The excitement of a basketball game*
- *The strategy of a chess match*
- *The intellectual challenge of a science fair*
- *The pressure of a competitive sporting event*
  - *– plus hundreds of screaming fans, pep bands, cheerleaders, music, dancing and mascots!*

ROCKY MOUNTAIN BEST

Our Mission

Is to host an engaging robotics competition which will excite and inspire Colorado students to pursue careers in science, technology, engineering and math while developing career skills for tomorrow's technical leaders.

Our Core Values

- Students are the sole participants and primary decision makers, designers and builders
- Any student may participate
- The program is Free to schools - no entry fee.
- Equipment and materials are provided to teams at no cost
- Any school may participate, regardless of type, size, location or socio-economic status.

Our Goals

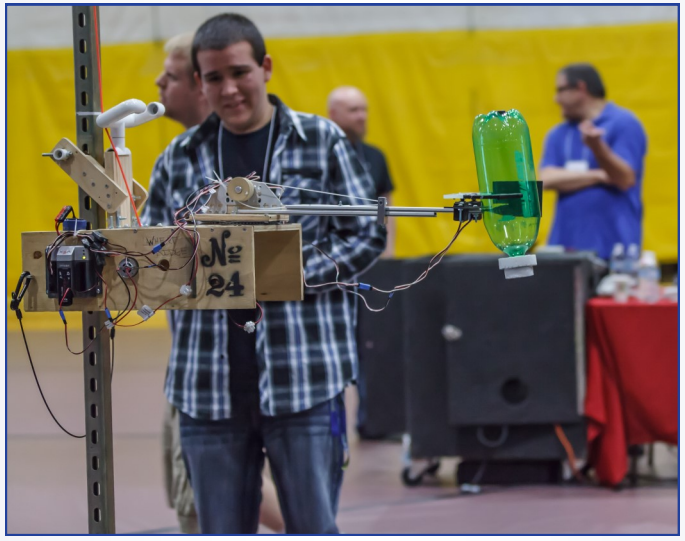
- To motivate students for studies and careers in engineering, science, and technology.
- To become a premier robotics competition for the Rocky Mountain Region
- To build strong community-based support for our activities
- To form alliances with organizations who serve youth locally and deliver the BEST product possible to schools and their students

Our Objectives

- Prepare students to be technologically literate and thus better prepared to enter the work-force
- Help Students develop leadership, project management, teamwork and organizational skills
- Develop students' confidence and competence through self-directed learning, decision-making, abstract thinking and problem-solving.

Partner with us!

Rocky Mountain BEST is an all-volunteer non-for-profit organization that hosts an annual robotics competition for middle and high school students. There are no entry fees for our competition. We will provide an identical set of robot building materials to each participating school at no cost.



Why Volunteer?

Rocky Mountain BEST needs your help! It is entirely volunteer based, down to every judge, referee and mentor. Without these hard working people, BEST, and the opportunities it provides to the engineers and scientists of tomorrow, would be lost.

We need your support to continue being one of the premier robotics competitions in the country.
